

“You’ll Have To Pry It From My Cold Dead Hands”

Celebrate the return of your energy, soft skin and **sex** drive!

By Mary H. Stockwell, CGP ACN

Loreen has money. I know that because she's been everywhere, seen everybody and tried everything.

She is the CEO of a prosperous Utah-based business that is your typical rags to riches story.

But that did not make her immune from the effects of a starving hormone system. Constant demand as a mother of four children under 18 years old, 30 lbs overweight, exhausted and working the ridiculous hours that go with building and promoting her own business, and not surprisingly, she was suffering from deep depression as well.

Loreen didn't start out 30 lbs overweight. But even as busy as she was, running a household, taking care of her children and managing her business affairs, the weight slowly increased...even as her energy quietly slipped away.

Sound familiar?

She woke up one day in her early 40's and “felt like she was in her 60's.” She could hardly get out of bed, in fact, she started calling in sick to her own business.

It just so happens that a good friend of hers has been a patient of our clinic for over a decade.

This patient took it upon herself to refer Loreen to our clinic, telling her about, and recommending she take our supplement —Ageless Thyroid.

Quickly Loreen called our clinic to make an appointment, and even with the strength of the referral she had, with my packed schedule, it still

took two months to secure an appointment with me.

Loreen was in good hands because her health history was very similar to what had happened to me. Because of what I was able to do for myself, and hundreds of other women, I was more than ready to help her.

To better understand why Loreen was in the right office, you need to understand what happened to me.

The story of how I melted my breast lumps is detailed in the book you just ordered, and it'll be arriving soon, but in the meantime, I'll tell you the backstory of that book, and how I knew exactly what to do for Loreen.

Years before I found my first breast lumps I was already suffering much like Loreen. I was a single mom with five children under age of 18, working a full-time job as a partner in a computer-consulting firm.

I was also working at night in a mall selling wedding dresses, I had an MLM business I was trying to get going, and I had invested in an online venture trying to sell websites to businesses (clear back in 1998!). But even with all this work, I was barely able to pay my mortgage.

I was, understandably, exhausted all the time. I remember falling asleep at traffic stops while driving to work. At the end of every month after paying the bills, I had \$11

AGELESS THYROID

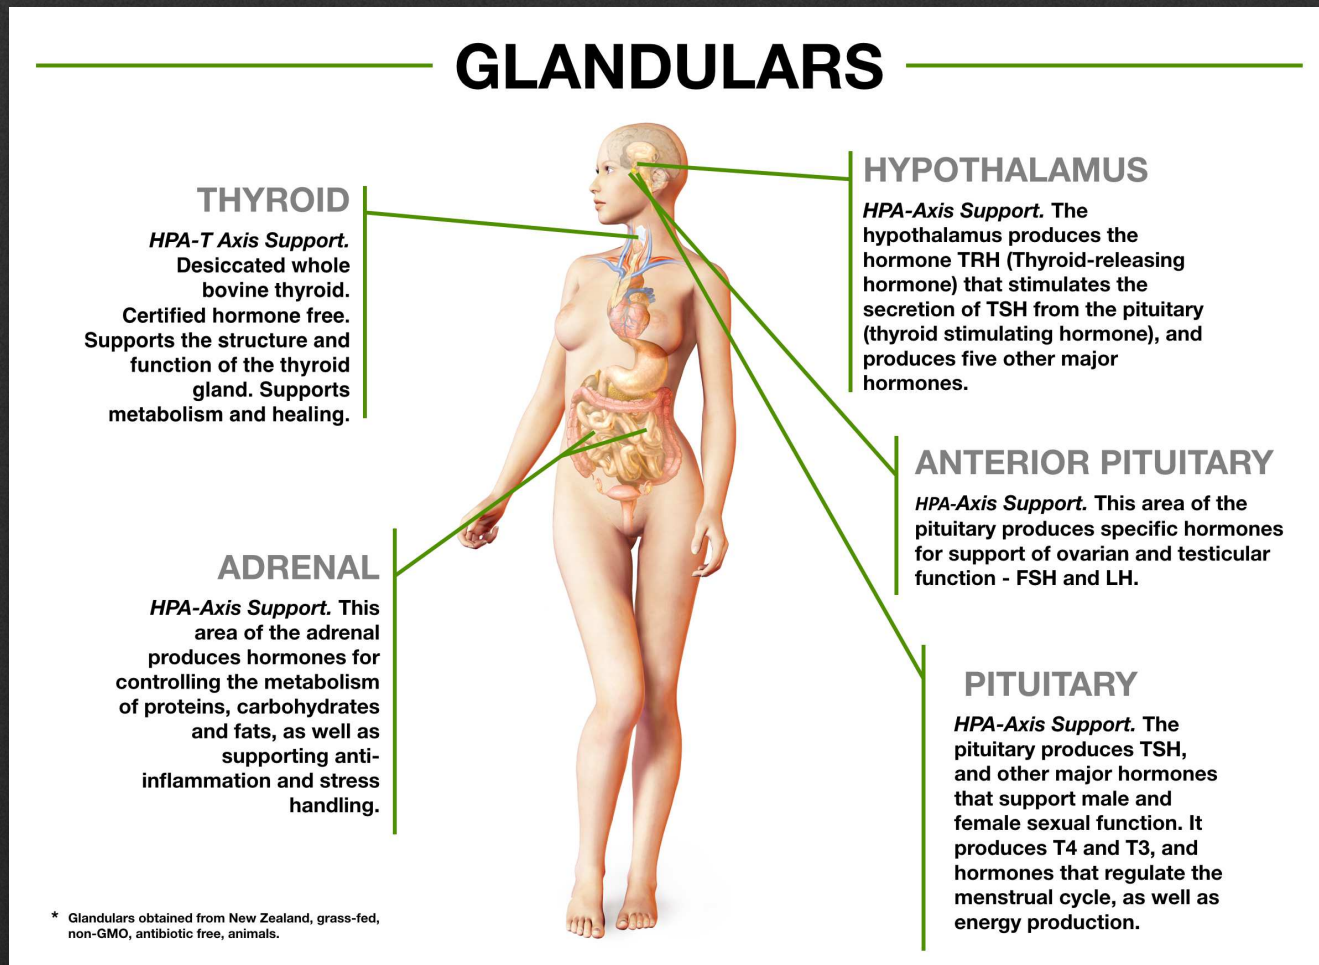

Is drugging your thyroid for the rest of your life your best option?

How about this...

NO doctors, NO appointments, NO drugs, NO side effects, NO compounding, NO HRT, NO exercise, NO dieting, NO shopping, NO cooking, NO juicing and NO prescriptions!

GLANDULARS

Most thyroid supplements only have herbs, some minerals and synthetic vitamins in them, but the important part they miss is the **GLANDULARS** - the actual food that **FEEDS** your thyroid which helps it to repair and rebuild.

left over— this was before buying food or shoes or even tampons. I was worn-out, tired and crying most of the time.

In the mornings I would roll out of bed on the floor, almost crying, crawl to the bathroom with a bladder ready to explode because I was too tired to go before I fell into bed the night before. Many times I would throw up before I left the bathroom out of utter fatigue. This was my day-to-day nightmare; only I was awake.

And my health...man...you know when women have cold hands and cold feet when they have a dysfunctional thyroid?

Well, I was waaaaay past that. If any air blew across the back of my neck, I would get these chills that would make me feel like I was going to die...even in the 100+ heat in Las Vegas where I lived. I embarrassed my children many times when I left shopping carts in the middle of the frozen section of grocery stores and ran outside to hug the warm brick walls. My children were embarrassed, but it was better than having what would have looked like a seizure meltdown right in the middle of the grocery store. Just thinking back now on those chills (which I haven't had for over two decades) makes me kinda

HERBS

ASHWAGANDHA

Helps to stimulate the production of thyroxin (T4). Helps reduce the effects of cell damage, and promotes a feeling of well-being. Helps reduce Insomnia and supports the body as it ages.

BACOPA

Helps to support the regulation of thyroid hormones, memory and brain function, concentration and focus. Calms the nerves and is a powerful blood cleanser for chronic skin conditions such as eczema and psoriasis.

GUGULIPID

Helps convert T4 to T3, normalizes hypothyroidism and hyperthyroidism, and auto-immune problems, stimulates thyroid production, stimulates an increase in Iodine uptake and enhances oxygen consumption in skeletal muscle tissue.

BLADDERWRACK

The original source of iodine. Provides beneficial effects in the normalizing of thyroid dysfunction, i.e., enhancement of metabolism and energy production. Reduces obesity, strengthens bones, protects the skin, aids vision, prevents premature aging, lowers risk of cancer, and strengthens heart health.

Herbs are medicinal - meaning they are used in our body as medicine - but they are not food. They do not rebuild all on their own. Without the glandulars to balance out the herbs, a thyroid supplement can stimulate your thyroid too much and too quickly.

freak out...they were so awful. I would shake so violently I felt as if my heart would stop.

Just putting groceries in the trunk of my car was awful. I remember this because after I was divorced, I no longer had the help of my husband when I went shopping, where he would always put the groceries in the trunk while I dashed to the inside of the car before the chills started! I remember, because it was so hard after I was alone...I always brought a scarf to the store...always, even in the dead of summer.

I have evidence of this—to this day; I have a TON of scarves that I no longer use. (Anybody need some scarves?)

And that wasn't all. My energy level was so low that I could not stand up very long. If I walked into a bank, or a church, or anywhere, and could see I had to stand in a line, I left – because I COULD NOT stand for more than 5 minutes. The first thing I would look for on entering any room was a chair.

I was only in my early 30's!! I felt like an 80-year-old woman. I used to be jealous when pregnant women or old people were offered to cut to the front of the

MINERALS & AMINO ACIDS

IODINE

Required for T4 and T3 production. Main component of thyroid hormone. Softens skin. May promote weight loss and a calm demeanor.

SELENIUM

Required in the enzymatic process of hormone synthesis, helps convert T4 to T3. Helps the body with degenerative diseases.

ZINC

Helps reestablish normal thyroid function and promotes healing.

L-TYROSINE

Helps rebuild the thyroid gland. L-Tyrosine is an amino acid, required for T4 and T3 production and rebuilding of collagen tissue. Main component of many hormones.

* Foods which contain these nutrients

Iodine is critical in manufacturing the thyroid hormone thyroxine. Selenium enables you to convert T4 to T3 to give you energy. Zinc helps you heal. L-Tyrosine is an amino acid that helps you build collagen and is the main component of many hormones.

line or offered a chair—thinking, "I need that!"

Needless to say, I was a mess. I didn't even have enough energy to bend over. I was always asking my kids to pick things up for me. Sometimes I would have to wait until they got home from school to help!

Have you ever felt like that?

There were many, many other things that were wrong with my health, but the worst was my energy. I could not fall asleep at night, and I could not wake up in the morning.

I remember in my prayers at night always included the phrase, "Please help me to fall asleep..." Being so tired and not able to fall asleep drove me crazy. Well, I WAS crazy. My emotions were off the chart.

I had no energy. I couldn't sleep. Then I found my breast lumps.

You will hear much more about that when you read my book, *Melting Breast Lumps*.

So that brings me back to Loreen. By the time Loreen showed up in our office, many years after the period of my life I

THIS IS THE FORBIDDEN DOCTOR, THE DOCTOR INSIDE YOU THAT YOU ARE FORBIDDEN TO KNOW ANYTHING ABOUT.

All healing is self-healing. No one heals anyone else. No one cures anyone. The body cures itself of whatever it is suffering from. It is that part of you that the “Powers That Be” have decreed it forbidden that you ever learn about, that you ever consider it, and mostly that you ever rely on it, for it is forbidden that you even know this life force exists at all.

**PODCAST WITH DR. JACK
AND MARY STOCKWELL, CGP**

**REVEALING HEALTH SECRETS
THEY DON'T WANT YOU TO KNOW**

have been describing, I had become an expert resolving endocrine issues through nutrition, having full confidence I could help her as I had helped hundreds of other women over the years. Most importantly I had helped myself, as the medical route would have left me an endocrine invalid...if not dead from breast cancer.

A personal consultation with me usually runs 4-5 hours and costs anywhere from \$400 to \$2,700 by the time we are through—which was not an obstacle for Loreen. Her problem was not money, it was time, as she was sick to death of all the doctors and medical tests and drugs she had taken—and still, felt no better.

She was laughing about looking for some illegal drug to give her a fake high so that she could make it through the day!

So when Loreen's appointment time had finally arrived, she sat across from me in the consultation room looking me square in the eyes, and said:

“I don’t even know why I’m here. As you well know Mary, from the medical records that were submitted to you at the time the appointment was made, my thyroid numbers were crazy bad, I could barely move, my children had to take care of themselves, I ached everywhere, had no energy, and I think I was threatening complete adrenal failure. However, after taking Ageless Thyroid for these past two months, I feel wonderful!”

Remember, when our patient had recommended Loreen see us, she had insisted she start taking Ageless Thyroid right away—as it had helped her considerably. So two months later Loreen felt as though she really didn’t

I FOUND MY FIRST BREAST LUMPS WHEN I WAS 36 YEARS OLD. NOTICE THE SLIGHT CLEAVAGE? I'M HAPPY I STILL HAVE IT! I AM 51 YEARS OLD IN THIS PICTURE.

I made Ageless Thyroid so no woman will have to be lost and afraid when a doctor says to her, "Come back when it's cancer." Now, there is something you can do, other than just watch and wait. I'm so thrilled I can share this with the entire world!

- Mary

need us anymore...and as she said, she didn't even know why she was there!

I asked her if she wanted just to cancel the appointment and save her money and time, but she insisted that we continue with the consultation as her friend had told her she was going to hear "forbidden" knowledge about her body, things she had never heard before. (I just love that part!)

When we were through, she was glad she had kept her appointment because the evaluation revealed foundational gut issues, which had probably led to her endocrine and exhaustion issues. She was surprised with these results after having felt such an improvement in energy and a greater overall sense of well-being.

So as I was finishing up her nutritional appointment and putting together her personalized protocol which mostly consisted of a GAPS microbiome reconditioning diet and supporting supplements, I said to her, *"Because we are going to be concentrating on the gut for a few months you could save some money if we left off Ageless Thyroid from your protocol, for now."*

She got this angry look on her face and said to me, **"YOU'LL HAVE TO PRY IT FROM MY COLD DEAD HANDS."**

Now, I know we live in Utah, and gun euphemisms are rampant here, but what I didn't realize was she had run out of Ageless Thyroid the first month and had driven to our clinic, which was at least an hour's drive from her home, to pick up two more bottles.

"I can't say enough good things about this product."

Mary L. Marshall - January 5, 2017

I can't say enough good things about this product. It's a great product for any woman of any age. **I am a post menopausal woman and this has really helped with the symptoms of menopause.** It has helped my mood and seems to help balance all my biological systems. My 22-year-old daughter also takes it. She started on it to help her **chronic acne** and her face has cleared up after having acne since 8th grade!!!! Dr. Jack and Mary Stockwell have developed a great product! Try it? You won't be disappointed!!
Individual results may vary.

I asked her why she had driven all that way because they are available on our website, (www.ForbiddenDoctor.com) as we ship product daily to our patients, we could have done the same thing for her and avoided the long drive to our clinic. I had no sooner made this suggestion when she gasped and said, **she was afraid we would run out of them!**

We do run out of them, often, and there is a 6-8 week lag time in production. We try to anticipate this, but due to the unexpected popularity of this product, we don't always get it right.

She had heard that we could hardly keep the product in stock and **drove "like a mad dog" to our clinic to make sure she had Ageless Thyroid in her hands.**

You will often see in supplement advertising, whether printed or on the

Internet, these following words, "These results are not typical" when talking about how fantastic their products are. In other words, "They probably won't work for you."

But in all honesty, while not everybody has experienced such a return of energy in only two months, the majority of our patients have, and therefore, we can say these results ARE typical!

I want to get this product into as many hands as I can. Loreen's results are just one of hundreds we have heard. There is no other thyroid product like this anywhere in the world, and I want to share it with every woman in the world.

So, because of stories like Loreen's and many others, we are just thrilled that we have been able to help so many women receive such dramatic results with such a small thing added to their lives, as a few daily capsules of Ageless Thyroid.

As a co-creator of this product, along with my husband Dr. Jack, I obviously am very excited and happy with the results so many others have received. But I want to finish in my own words just how I feel about Ageless Thyroid...a supplement I will probably take the rest of my life:

"I am so excited for this Ageless Thyroid product because I took each of its ingredients separately, for years, to support and heal my thyroid and melt away my breast lumps. (Podcast Episodes #1 and #61 at www.ForbiddenDoctor.com) It was such a pain, and much more expensive to do it that way! So Dr. Jack and I created this whole food thyroid product to simplify the process, make it cheaper and give everybody the same healing foods to support their endocrine, emotional and hormonal health in a much easier and cost effective way!"
