

December 2018

To whom it may concern,

I am requesting a religious exemption for vaccines based on the following information.

My body is a temple as stated in 1 Corinthians 6:19-20, and 1 Corinthians 3:16-17, and the toxic chemicals contained in vaccine injections are very neurotoxic and can damage nerve tissue.

Additionally, some ingredients of these vaccines contain the DNA of foreign life forms, which according to my beliefs are not to be put into my body. These are an insult to the temple of my body and are injurious to my health.

Below, I list only one set of ingredients, taken from the CDC website, of one vaccine cocktail, but I could list many more. Here are the ingredients in this common vaccine — **DTaP-HepB-IPV (Pediarix)**:

Formaldehyde, glutaraldehyde, aluminum hydroxide, aluminum phosphate, lactalbumin hydrolysate, polysorbate 80, neomycin sulfate, polymyxin B, yeast protein, calf serum, Fenton medium (containing bovine extract), modified Latham medium (derived from bovine casein), modified Stainer-Scholte liquid medium, Vero (monkey kidney) cells.

These, especially the monkey kidney cells, will cause some level of autoimmune dysregulation. You should never have DNA of another species, or even your own, in your blood stream. The body is very careful to keep these out. Your body will create auto-antibodies to these cells which most likely will trigger autoimmune diseases.

These chemicals are very toxic to my body. My body is a temple of the Lord and I am commanded to keep it clean. I have very strong beliefs in this area, so I am requesting a religious exemption in as much as this completely conflicts with my religious beliefs.

I am in excellent health and I do not want to inject these noxious chemicals into my blood stream. Especially Polysorbate 80 which opens up the blood brain barrier as this is the same chemical they use on patients with brain cancer to enable the chemotherapy to get into their brain. This would enable the aluminum hydroxide and/or methyl mercury in the vaccines to pass through my blood brain barrier in direct violation of my religious beliefs. Vaccinations always cause some level of autoimmune dysregulation.

For further examples of ingredients in vaccines see:
